the history of cable television in america is far older than networks like mtv espn and hbo which are so familiar to us today tracing the origins of cable tv back to the late

1940s media scholar John McMurria also locates the roots of many current debates about premium television, cultural elitism, minority programming, content restriction, and corporate ownership. *Republic on the Wire* takes us back to the pivotal years in which media regulators and members of the viewing public presciently weighed the potential benefits and risks of a two-tiered television system split between free broadcasts and pay cable service. Digging into rare archives, McMurria reconstructs the arguments of policymakers whose often sincere advocacy for the public benefits of cable television were fueled by cultural elitism and the priority to maintain order during a period of urban black rebellions. He also tells the story of the people of color, rural residents, women's groups, veterans, seniors, and low-income viewers who challenged this reasoning and demanded an equal say over the future of television. By excavating this early cable history and placing equality at the center of our understanding of media democracy, *Republic on the Wire* is a real eye opener as it develops a new methodology for studying media policy in the past and present.

In post-9/11 America, while all eyes were on Iraq and Afghanistan, *The Wire* (2002–2008) focused on the dark realities of those living in America's disintegrating industrial heartlands and drug-ravaged neighborhoods, striving against the odds in its schools, hospitals, and legal system. With compelling story lines and a memorable cast of characters, *The Wire* has been compared to the work of Tolstoy and Dostoevsky, with a level of detail rarely seen in a dramatic series. While the show garnered critical praise and a loyal following, a discussion of its political aspects in particular Bush-era America is overdue. This collection of new essays examines *The Wire* in terms of the war on drugs, the racial and economic division of America's cities, the surveillance state, and the meaning of citizenship.
